CLOUD STIMULATED OUTPUT:

The screenshot displays the IBM Watson IoT Platform interface. The top navigation bar includes tabs for 'Sign in to Wokwi', 'sketch.ino - Wokwi Arduino and', 'Service Details - IBM Cloud', and 'IBM Watson IoT Platform'. The browser address bar shows the URL 'jesccj.internetofthings.ibmcloud.com/dashboard/devices/browse'. The user is logged in as 'purni1812@gmail.com' with ID 'jesccj'.

The main dashboard area shows a list of devices. The selected device is 'PURNI', which is 'Connected' and an 'ESP32_Controller' device. The 'Recent Events' tab is active, displaying a table of events:

Event	Value	Format	Last Received
Data	{ "hum":63.5,"nmr!":"humidity greater than 30" }	json	a few seconds ago
Data	{ "temp":2,"nmr!":"temperature less than 38" }	json	a few seconds ago
Data	{ "hum":63.5,"nmr!":"humidity greater than 30" }	json	a few seconds ago
Data	{ "temp":54.8,"ALERT!":"temperature greater tha...	json	a few seconds ago
Data	{ "hum":12.5,"ALERT!":"humidity less than 30" }	json	a few seconds ago

The bottom of the screenshot shows a Windows taskbar with a temperature of 26°C, a search bar, and various application icons. The system clock indicates 20:42 on 17-11-2022.
